Manipal Payment and Identity Solutions

Q2 & H1 FY27 EARNINGS PRESENTATION

3 November 2026

Safe Harbour

This presentation has been prepared by Manipal Payment and Identity Solutions Limited (the "Company") solely for information purposes. It does not constitute an offer, recommendation or invitation to purchase or subscribe for any securities of the Company, and no part of it shall form the basis of any contract or commitment.

Certain statements in this presentation are forward-looking statements, generally identified by words such as "aim", "anticipate", "believe", "expect", "estimate", "intend", "plan", "will" and similar expressions. They are based on management's current expectations and are subject to risks and uncertainties, including changes in demand, competition, technology, regulation and macro-economic conditions, that could cause actual results to differ materially. The Company undertakes no obligation to update or revise any forward-looking statement.

This presentation includes non-GAAP measures such as Operational EBITDA and EBITDA margin, and a management classification of the Company's businesses into Core and Emerging. These are supplemental measures that are not defined under Ind AS and may not be comparable with similarly titled measures of other companies. A summary of consolidated financial results is provided in the Annexure.

Industry and market data are sourced from the report titled "Assessing the Potential of Global Payments Card Market" dated August 10, 2026, prepared by Frost & Sullivan and commissioned by the Company, and from other public sources; such data has not been independently verified. Financial results have been subjected to limited review by the Statutory Auditors. Figures are in ₹ crore unless stated otherwise and may not add up due to rounding.

Key commentary

Revenue

+40.3% YoY

H1 FY27 revenue **grew 40.3% YoY**, supported by healthy growth across Core businesses (+23%) and Emerging businesses (+92%)

EBITDA

30.1% margin

H1 FY27 EBITDA **grew 29.1% YoY**. Margin moderation reflects investments in newer businesses and geographies

- Q2 & H1 FY27 margins impacted by adverse forex movements and elevated import costs due to global geo-political tensions

Scaling of new initiatives and improved capacity utilisation are expected to support margin performance

PAT

45.4% YoY

H1 FY27 PAT **increased 45.4% YoY**, supported by higher operating earnings and lower finance costs

PAT grew despite incurring ₹16.5 crore (after tax) in seeding & development costs for new businesses, geographies, and facilities

Consolidated; subjected to limited review. Operational EBITDA excludes other income; PAT margin on revenue.
